12. FOLLOW-UP REQUIREMENTS

- a) Each follow-up report must include the following:
- A completed follow-up form signed by the athlete and the PSO/MSO.
 - A copy of the financial documentation to verify the eligible expenditures. Financial documentation (receipts) to verify expenditures can take various forms but should at a minimum:
 - Indicate name of recipient (person or business) of the funds.
 - Describe goods or services provided for payment.
 - Disclose the amount of the payment.
 - Include the date that the goods/services were purchased (**must be within the grant period**).
 - Include third party verification (supplier logo on an invoice, signature of a recipient on an expense claim, or in the rare instance where there is no other documentation, a copy of the cheque with the bank clearing stamp on the back).
- NOTE:** Legible copies of documents for financial accountability (Ex. receipts, cancelled cheques, invoices, expense claims, etc.) are acceptable. Original documents are not necessary for submission to Sask Sport but should be maintained by the athlete submitting the grant follow-up report.
- The follow-up must be substantiated by the PSOs/MSOs audited financial statement when it becomes available. Revenues (External Self-Help revenue) and expenditures (Categorical Grants) for this grant program must be clearly identified either in the body of the statement, or in the schedules or notes to the statements.
- b) Successful recipients of the Next Generation Indigenous Athlete Assistance Program will be asked to participate in a 20–30-minute interview-style phone or web consultation. The interviewer will ask the recipient questions about their sport participation and experiences as an elite-level athlete. The intent of the consultation is to determine supports athletes have in place that helped them reach higher performance levels, the barriers experienced that potentially make high-performance participation more difficult and any advice or recommendations the recipient can provide to help make high-performance participation more accessible for Indigenous participants. Confidentiality will be strictly maintained, and the program will never provide identifying information to anyone outside of the interviewer without express permission. The insight gained from the consultations will be combined into a report with recommendations for increasing access and improving participant experiences in higher performance sport across the Saskatchewan sport system.
